

Mailpiece Design - Introduction

The MQC program is the Postal Service's certification program for mailpiece design. Recently revised, the program is all new for a new millennium. The course is designed for individuals responsible for creating mailpieces for entry into the U.S. Postal Service's mailstream. After completing this course, you will better understand the acceptance requirements of the USPS as they relate to mailpiece design.

The program incorporates a self-study guide in which you learn at your own pace. When you're ready, send away for the final exam. If you pass, you'll receive a certificate recognizing you as the "Mailpiece Quality Control Specialist" for your company. This course will give you the confidence that your mailpieces will qualify for postal discounts and meet all relevant standards for mailing at the rate and class you desire.
