

LICENSING ANNOUNCEMENTS

January 18, 2008

RDI Licensees,

Below is an important announcement regarding an RDI™ License change.

RDI License Change

In our continuing efforts to enhance USPS® Licensed Products, the USPS is no longer requiring use of the RDI Product with a CASS Certified™ engine. The RDI License has been updated to reflect this change.

Current RDI Licensees may continue to operate under the former RDI License. However if Licensees would like to begin using a USPS approved address standardization tool, a new RDI License must be executed with the USPS.

If you have any questions or concerns regarding this notice, contact the Move Update Department at 800-589-5766.

Thank you for your continued business with the USPS.

Reminders

- ◆ For any changes made to the license and supporting documents, check the Modifications document at <http://www.ribbs.usps.gov/files/RDI/>.
- ◆ All monthly reports are due on the 7th calendar day of each month. Submit your reports to rdi@usps.gov.
- ◆ If you have personnel changes, please forward an updated Key Personnel Form to rdi@usps.gov or fax it to 901-681-4579.
