Dear Postal Customer:

Due to the considerable number of route adjustments that are currently being processed nationally, a significant amount of data changes are occurring. In an effort to provide you with the best possible service, we highly recommend updating your address data as soon as you receive the latest information from our addressing products.

The U.S. Postal Service® is committed to providing our customers the highest quality data products to facilitate timely processing and delivery for the mailing industry.

If you have any questions or need additional information, please contact the AIS Product Support Department at 800-238-3150.

Sincerely,
