

Certification Requirement Date Change for Cycle L

For Cycle L, DPV® and LACS^{Link}® became mandatory requirements for all CASS™ and MASS™ end-users. Because of these requirements CASS Cycle L was changed from an annual certification requirement to a two year certification requirement. The cycle requirement date was changed from August 1, 2007 through July 31, 2008 to August 1, 2007 through July 31, 2009.

In an effort to assist the mailing industry the Postal Service extended the requirement date for CASS/MASS Cycle L certification from July 31, 2009 to September 30, 2009. The start date for Cycle M certification was October 1, 2009.
