

**CASS™/MASS™
ANNOUNCEMENT
July 16, 2014**

Information about Cycle N testing since Cycle O suspension

Primary Audience: CASS/MASS Software Developers, Integrators, Manufacturers

What: The Cycle N expiration date has been extended to July 31, 2016. Any new test requests will continue with Cycle N grading using Cycle N static test data. Any Cycle O requirements incorporated into address matching software are optional. The Cycle O Stage I file is the only means of verification for the new requirements.

When: Immediately

Impact: Changing the software expiration date will result in extending the CASS Cycle N security expiration date.

What you need to do: Please share this information with all pertinent contacts at your company. If you have any questions, please contact the CASS/MASS Department at 800-642-2914.
