FAST Web Services

- **Mail.dat Content Interface**

Mail.dat Content on Recurring Appointments

Only up to 100 contents can be accepted for Origin Entry FAST web services customers updating an Origin Entry Recurring Appointment Instance. Previously, there was no limit on the number of contents that were associated to the Origin Entry Appointment Instance. This enhancement will ensure that the Origin Entry Recurring Appointment Instance limitation is the same as the existing limitation for drop ship.

Appendix A – Changes to Version 15.2.0

The following table represents the changes from the previous version of the Release Notes for the FAST 15.2.0 Release.

Note: Section numbers referenced below reflect numbers after additions/deletions have been made and may not correspond with the section numbers of the original (or revised) document. Minor grammatical and spelling changes made are not included in the table below.
