- 1. DeliveryAppointmentCancelCreate Message.....3
- 3. RecurringApptQueryRequest Message.....3
- 4. DeliveryContentCancel Message .....4

## **Chapter 1 External FAST Users (Customers)**

### **I. Online User Interface**

#### **A. General**

1. Online users will be able to return to the Facility Profile page upon clicking the "Return to Previous Screen" link from the following pages: "*Facility Holiday Information*", "*Facility Profile – Additional Information*" and "*Critical Entry Times*". Previously, the users would receive an error page.
2. Online Origin Entry users will no longer be able to cancel all content on a JIT One-Time Appointment, if it was not originally created as a JIT One-Time Appointment Shell.
3. Online users will be able to select the checkbox found within the content grid on the "*Manage Stand-Alone Content*" page to receive an email once their stand-alone content has been associated to an appointment. Previously, the user was not able to select the checkbox.

### **II. FAST Web Services**

The following changes apply to customers utilizing FAST Web Services:

#### **A. Mail XML 8.0B**

1. DeliveryContentCancel Message

Web Services customers cancelling content will no longer be able to submit the DeliveryContentCancelRequest message containing multiple Appointment IDs / Recurring Appointment Sequence IDs. Customers will now cancel the content associated to a single Appointment ID / Recurring Appointment ID.

#### **B. Mail XML 6.0D**

1. DeliveryAppointmentUpdate Message

Web Services customers utilizing the DeliveryAppointmentUpdateRequest will no longer receive "3092 / Unable to associate stand-alone content (ConsigneeContentID &lt;Content ID" with the "&lt;" character. Customers will now receive "3092 / Unable to associate stand-alone content (ConsigneeContentID < Content ID)" with the "<" character.

2. DeliveryContentCancel Message

Web Services customers cancelling content will no longer be able to submit the DeliveryContentCancelRequest message containing multiple Appointment IDs / Recurring Appointment Sequence IDs. Customers will now cancel the content associated to a single Appointment ID / Recurring Appointment ID.

## Appendix A – Changes to Version 4

The following table represents the changes from the previous version of the release notes for the FAST 15.0.0 Release.

Note: section Numbers referenced below reflect numbers after additions/deletions have been made and may not correspond with the section numbers of the original (or revised) document. Minor grammatical and spelling changes made are not included in the table below.

Section	Change Type	Description
II.A.1	Removal	<p>1. DeliveryAppointmentCancelCreate Message</p> <p>Web Services customers utilizing the DeliveryAppointmentCancelCreateRequest message for Origin Entry will no longer receive “314 / You have experienced an error with the application. Please contact your FAST or Web Services system administrator for assistance” when setting the “TransferAllContent” element to “Yes”.</p>
II.A.2	Removal	<p>2. DeliveryContentCancel Message</p> <p>Web Services customers utilizing the DeliveryContentCancelRequest message for Origin Entry will no longer receive an incorrect error if the Origin Entry “ConsigneeContentID” is the same as an existing drop ship “ConsigneeContentID”. Previously, customers would receive any of the following error messages: “3034 / Scheduler ID does not correspond to Scheduler ID”, “3083 / Content has been previously associated to an appointment”, “3032 / Content may not be cancelled - appointment must have at least one content” or “1007 / Update/cancel refused - Appointment closed/canceled”.</p>
II.A.3	Removal	<p>3. RecurringApptQueryRequest Message</p> <p>Mailers utilizing the RecurringApptQueryRequest message will no longer receive “1002 – Unrecognized Facility” when retrieving a recurring Origin Entry appointment at an Origin Entry only active facility.</p>
II.B.1	Removal	<p>1. DeliveryAppointmentCancelCreate Message</p> <p>Web Services customers utilizing the DeliveryAppointmentCancelCreateRequest message for Origin Entry will no longer receive “314 / You have experienced an error with the application. Please contact your FAST or Web Services system administrator for assistance” when setting the “TransferAllContent” element to “Yes”.</p>
II.B.3	Removal	<p>3. RecurringApptQueryRequest Message</p>

Section	Change Type	Description
		<p>Mailers utilizing the RecurringApptQueryRequest message will no longer receive "1002 – Unrecognized Facility" when retrieving a recurring Origin Entry appointment at an Origin Entry only active facility.</p>
II.B.4	Removal	<p>4. DeliveryContentCancel Message</p> <p>Web Services customers utilizing the DeliveryContentCancelRequest message for Origin Entry will no longer receive an incorrect error if the Origin Entry "ConsigneeContentID" is the same as an existing drop ship "ConsigneeContentID".</p>
