Effective May 1, 2011, the consolidation functionality for the Day of Week field in the CSA .csv file was reverted to the original functionality. Only the following days of the week will be grouped in the CSA .csv file:

- Monday – Friday (MF)
- Monday – Saturday (MS)
- Monday – Sunday (ALL)

As part of the FAST 16.0 (April 17, 2011) release, the CSA .csv functionality was modified to consolidate multiple trips with sequential days of the week. These requirements were removed from FAST in order to prevent mailers from having to make multiple adjustments to their software in support of the upcoming CSA simplification initiative. Effective November 2011, the Day of Week field will no longer be used and CSAs will be simplified to only reflect fields required for First-Class separations.
