IMpb Compliance Webinar October 14 at 10 a.m. (EDT)

In January 2014 the USPS required all commercial packages to be IMpb Compliant. This requires a unique IMpb barcode on each piece, submission of a Shipping Services File version 1.6 or higher including the complete destination delivery address and/or 11-digit delivery point validated (DPV) ZIP Code or ZIP +4 Code for each package in the mailing. Join us on this informational webinar providing all the requirements for IMpb Compliance as well as new requirements for January 2015.

Attendee Information:

Event number: 991 225 460

Event address for attendees:
