Federal Register Notices regarding Move Update

The US Postal Service has published two notices related to the Move Update process.

Address Quality Census Measurement and Assessment Process: This updated proposed rule provides information regarding the approach to measuring Move Update compliance utilizing information derived from the Intelligent Mail Barcode during processing on Mail Processing Equipment. This document also includes responses to the mailer comments which were obtained from the original proposal. To allow mailers to comment on the proposal, there is another 30 day comment period available through normal FRN processes.
