Premium Forwarding Service – Commercial (PFSC) Simplifies Business Mail

The Postal Service's Business Customer Gateway can help large companies redirect mail arriving at multiple business street addresses and business Post Office Boxes on a recurring established frequency.

Enrollment in PFSC must now be completed online; business customers must also link their electronic verification system (eVS) and Centralized Account Processing System (CAPS) accounts.

For the yearly application fee and postage for each shipment, the Postal Service will collect the business mail from multiple street addresses and/or PO Boxes and forward it to one domestic address in either a Priority Mail or Priority Mail Express branded container.

The Business Customer Gateway is located at <https://gateway.usps.com/eAdmin/view/signin> .
