

RELEASE NOTES 44.0.4.1

The *PostalOne!* system Release 44.0.4.1 will be implemented on November 6, 2016 to introduce software modifications to the system. This includes corrections to issues previously identified in a prior release.

These Release Notes provide the contents of the release and affected subsystems.

Contents of this document are subject to change.

1.0 Mail.dat Client Downloads

There is no new Mail.dat client version with this release. Users should continue to use Mail.dat client version 44.0.0.0_PROD.

The current Mail.dat Client may be downloaded from the Business Customer Gateway (BCG) using the following path: Mailing Services → Electronic Data Exchange [Go to Service] → Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris)

2.0 Corrections to Known Issues

This information is derived from External Trouble Reports (ETRs) Change Requests (CRs) and Engineering Change Requests (ECRs).

2.1 Full-Service Mail Entry Postage Assessments

- The Mail Entry Additional Postage Due Assessments and email notifications for October data will be sent on November 14, 2016. Beginning in December and thereafter, the assessments and email notifications will be sent on the 11th day of the month for the previous month's invoices. The assessments result in the removal of the Full-Service discount on those pieces in error above the established thresholds. Assessments are generated at the electronic documentation (eDoc) submitter Customer Registration ID (CRID) level when there are errors that exceed the established thresholds for a calendar month.

Note: Automated email notifications are sent to the user associated with the Verification Assessment Evaluator (VAE) service in the eDoc submitter's Business Customer Gateway (BCG) profile. If no VAE is identified, the notification is sent to the Business Service Administrator (BSA) for Managed Mailing Activity (MMA). If no BSA is specified for MMA, the notification is sent to the BSA for an alternate PostalOne! Service: Audit Mailing Activity, eVS/PRS Customer, or Scan Based Payment Customer.

- The Mail Entry Postage Assessment process has been updated to generate assessments for Full-Service mailings only. For eInduction, Seamless Acceptance, and Move Update mailings, additional postage due amounts, error counts, and error percentages no longer appear on the Mail Entry Invoice (MEI) reports. This data is included on the MEI reports for Full-Service electronic verification results only.
- The Mail Entry Invoice Postage Assessment module has been updated to activate the "Pay" hyperlink to allow users to pay their additional postage due assessments. Postage assessment payments are due 11 business days following the assessment date, not including weekends or federal holidays. Only users associated to the BSA or user role for VAE or BSA for Managed Mailing Activity services can view and take action on assessments.
- The Mail Entry Invoice Postage Assessment module has been updated to activate the "Request Review" hyperlink for users to request a review of an assessment on the page. Only users associated to the BSA or user role for VAE or BSA for Managed Mailing Activity services can view and take action on assessments.
- A notification email is sent to the Mail Owner when their permit is used for payment of assessments. Mail Owners are identified using the same logic as notifications for eDoc submitters. [10112 {E}](#)
