

RELEASE NOTES 42.0.2.0

The *PostalOne!* system Release 42.0.2.0 was implemented on January 7, 2016 to introduce software fixes to the system. This includes corrections to issues previously identified in a prior release.

These Release Notes provide the contents of the release and affected subsystems.

Contents of this document are subject to change.

Please note the following regarding the Mail.dat client download, there is no new client for Release 42.0.2.0

Mail.dat client	Status
42.0.0.0_PROD	Download required. All older versions will expire.

1. Corrections to Known Issues

This information is derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs).

1.1 BMEU

The *PostalOne!* System postage statement creation process has been updated to consistently display lines in the correct order for Parcel Select postage statements (PS Form 3605) submitted at a BMEU. Prior to this release, the lines in Part C (Parcel Select Destination Entry) were listed out of order for Parcel Select postage statements when the Balloon and Oversize options were selected for Other Destination Entry. This was a display issue only and did not affect postage, although it was confusing for users since the lines were in an unexpected order. [8775 {B}](#)

1.2 Postage Statement Processing

- Postage statement processing for Library Mail and Media Mail has been updated to correct a display issue that previously resulted in an incorrect Part B total appearing on the master statement in a multi-statement mailing. The issue affected the master statements submitted by Mail.dat for Library Mail and Media Mail (PS Form 3605) Flats. The total displayed on the Part B Total (line B7) of the master statement did not equal the sum of lines B1 - B6. This was a display issue only; the correct amount was submitted for payment from the child postage statements. [8739 {B}](#)
- PS Form 3600-PM lines A8 – A20 for Dimensional, Balloon Prices, and Zones are now consistently available for entry for customers with an active Commercial Plus Pricing (CPP) contract. Prior to this release, a defect prevented postage statement lines A8 – A20 from being available for entry on PS Form 3600-PM statements under certain scenarios. The issue affected users entering PM statements for flats or parcels through a BMEU when the Pre-Price option was selected for mailing dates between January 3, 2016 and January 16, 2016. [8812 {B}](#)
