**Mail Preparation & Entry Steering Committee Session Notes**  
**Tuesday, November 2, 2016**

**MAIL PREPARATION & ENTRY STEERING COMMITTEE**  
**Robert Cintron, USPS VP-Network Operations**

**MAIL PREP ENTRY STEERING COMMITTEE IDEAS LOG**

- Item #74 - Removal of Origin Sack
  - Solution is only for Chicago NDC at this time
  - Expansion beyond Chicago NDC will be carried over to the Work Group #180.
- Item # 122 - Eliminate Minimums for ADC / SCF Sortation
  - Industry and USPS discussed the minimum number of pieces and if helps or hurts the sortation
  - Industry is going to go back and look at the original idea and see if the potential solution will help solve the problem.
  - If potential solution does not work, Item #122 will carry over to the Work Group #180.

**COMMITTEE REVIEW**

**OPEN DISCUSSION**

- The Committee discussed on how ideas were assigned priority. USPS shared that they have a tool that gave ratings to the different ideas and the order of priority.

**CLOSING**

- Industry recognized how the committee worked as a team and the small size of the committee.
- USPS liked the small size also as it kept communication open and responsive.
- It helped that the committee was able to stay organized help and keep everything on track and moving in the right direction.
