November Release - Features

- # The “Release 28 Summary for MTAC UG 1” document was reviewed.

Release Notes – June, 2011

- # The draft of Release Notes - 27.0 was provided for the group to review. The post design release notes will be posted to RIBBS a week after the Postal Forum.

Group Input

- # Question: Should a mailer join MTAC User Group 1 if they wish to discuss barcode readability? Answer: The postal leadership will investigate and respond at a future meeting.
- # Question: When will new postage statements for the June release be available? Answer: We hope to have posted by Monday, May 2, 2011; however it may take longer due to security issues.
- # Question: Do we have an update on the “Service Performance Measurement” issue? Answer: We are still awaiting finalization on this item?
- # Question: If you need to enter a manual periodicals (3541) postage statement in order to get around PostalOne! limitations, will you no longer receive free ACS. Answer: If we cannot finalize your statements for Mail.dat or Mail.XML and they do not go to SASP, then you will not receive it. Log your issue with the Help Desk, push your Mail.dat files through and postage adjustments will be made.
