

## 1.1 Qualification Report Enhancements and Corrections

### 3.1.1 Description and Priority

Correct the issues of the Qualification Report functionality that was lost in past releases and correct the difference of the Qualification Report view that it displays the same information regardless whether from Mail.dat and Mail.xml edoc.

### 3.1.2 Stimulus/Response Sequences

Once logged into USPS Intranet or External User Business Customer Gateway the user will access the Dashboard from the existing process.

### 3.1.3 Functional Requirements

REQ 1.: *PostalOne!* will display a Group Destination ZIP only once on the Qualification report for each ZIP. See Exhibit 1.(ETR [50141](#))

REQ 2.: *PostalOne!* will not display a Firm Bundle on a separate line for a Group Destination. The Qualification Report is currently displaying two lines under Group Destination for the ZIP 006 – one for the 3B and one for the FB. Containers should display as the sample demonstrated in Exhibit 1. (ETR 50141)

Comment [spw1]: Corrected the ETR number

#	Size	Type	Level	Chg	ZIP	Group Dest	CR	3B	3B	AB	MB	3D	3D	AD	MD	FB	Tot Copies	ZONE	Eng Total
000083		S	3D	1	006	006			5							14	38	7	43
						007			2								2	7	45
						008			4								4	7	49
						009			14				4				18	7	67

Exhibit 1

REQ 3.: 54472 eDocs: Qualification Report - Should not be grouped by Carrier Route Number and Group Destination Zip. Qual report is displaying the same Group Destination ZIP on several lines for the jobs that have multiple Carrier Route number for the same Group Destination. The count should be summarized to a Single line for each ZIP. (COM 54472)

REQ 4.: Container List Report - Physical and Logical Tray/Container Counts. The Container List report should display the physical tray/container counts, not the logical tray/container counts. (COM 59464)

- REQ 5.: Reconciliation Report. Price Categories are not consistent with each other on the Reconciliation report. Some have Auto/Nonauto first and then the presort level. Others have the presort level first and then Auto/Nonauto. Correct the price categories to be consistent. (COM 38144)
- REQ 6.: *PostalOne!* Qualification Report will retrieve 500 – 1000 records at a time and will not time out due to memory issues in retrieving large number of records at a time. (MTAC UG1 – 61035)
- REQ 7.: *PostalOne!* will display until the last record for Qualification Report Bundle Search even when the user selects “50 records” at a time. At present *PostalOne!* fails to display the 251st record when “50 records” at a time is selected. (MTAC UG1 – 68601)

## 1.2 OCI report

### 3.2.1 Description and Priority

Correct the issues of the Original Container Information report for Mail.dat and Mail.xml edoc.

### 3.2.2 Stimulus/Response Sequences

Download xls and csv for the OCI report. Display IMTB. ETR for the incorrect finance number. Group trays by pool (original Job ID) like inbound release report.

### 3.2.3 Functional Requirements

- REQ 8.: Mail.dat The system shall provide for the postal clerk at the consolidator location download of the Original Container Information report in xls format and in csv format for the OCI report.
- REQ 9.: Mail.xml The system shall provide for the postal clerk at the consolidator location download of the Original Container Information report in xls format and in csv format for the OCI report.
