 - **Removed:** or ConsolidatedPeriodicalStatementCreateRequest message and the PieceWeight field in the Qualification Report does not match the PieceWeight field in the Periodical or Consolidated Periodical Statement.

Issues List

- ✚ There were no new issues added to the log.

Other/Group Input

- ✚ Full Service ACS Issue/Duplicate NIXIES are being sent.
 - Chetan Patel explained that: SASP encountered an issue with NIXIE processing on 5/17 (ETR 77470 was logged and resolved on 6/1)
 - When restarting the process during the initial failure, SASP generated duplicate records for scans that were in the process of being associated. When the fix for the ETR was implemented, the data for the past week was restaged, but split between three days (5/26 – 5/27) to manage the load of restaging a week’s worth of data. This inadvertently resulted in restaging the duplicates caused from the restart when the initial failure occurred on 5/17.
 - The customer stated that there was significant impact and was questioned why the mailers were not notified earlier.
 - It was then stated by the Postal Service that even though this issue started to occur on 5/17, it was not known by the Postal Service until 6/3 based off an email from the customer to the Postal Service.
 - To prevent this from occurring in the future, ETR 78794 has been entered to modify the PostalOne COA and NIXIE interfaces to send only distinct scan records received from ACS. SASP will still send scans if the same barcode is sent from ACS multiple times.
 - The Postal Service stated there will be a DMM Advisory regarding the issue.

- **After the meeting:** The SASP Program Manager and the SASP Team are reviewing opportunities to modify the validation procedures after deployments to identify anomalies in order to minimize any delays in notification to customers.

✚ Version IDs/Mail.XML

- A question from a Customer was raised about Version IDs not being applied: The Postal Service stated that Version IDs are applied to all classes of mail and all the information is available on RIBBS.

✚ June 23, 2011 MTAC UG 1 Meeting will be canceled since Postal Service leadership is not available.

Attendance

70 Members

MTAC Issues Tracking System (MITS)

- ✚ To see the previous postings of minutes and other user group documents, the steps are:
1. Business Customer Gateway
 2. National Customer Support Center - RIBBS (listed under "Customer Support")
 3. MTAC (last tab on left menu) MTAC Issues Tracking System Login (listed under "Important Links")
<http://ribbs.usps.gov/index.cfm?page=mtac>
 4. Sign on with user name UG 1
 5. **Obtain an individual password by emailing ribbs@usps.gov**
 6. Click on User Group
 7. Search on User Group Issue Number 1
 8. Click on View Minutes

Next Meeting

✚ **Agenda – Thursday, June 16, 2011**

- Review minutes
- November Release Topic(s)
- Issues List
- Group Input

✚ **Thursday, June 16, 2011 10:00 AM to 11:00 AM**

From a phone dial: 866-567-8049
Meeting ID: 4379365
