

PostalOne! Release 32.0.0
Known Issues
October 2012

ETR	Problem Statement	SOX Impact	Financial Impact	Customer Impact	Workaround
106455	Postal Wizard and BMEU Unable to submit Combined consolidated periodicals	Yes	Yes	Both	Enter each individual Periodicals Statement as a separate mailing.
106459	eInduction Processing Halted due to Invalid Mail.dat MID Data			Both	Cancel the statements and delete the job to remove incorrect job before it becomes an aged job. Resubmit with correct Mail Preparer MID
106460	Upon finding zero balance for any mailing, the message displays incorrect account type. 'Permit Imprint Account No. # has 0 balance' is given for all permit types even when the permit account type is Metered or Precanceled. The same is true for less than zero balance.	No	No	Both	Continue with a negative balance, ignore incorrect permit type. This will require override. (The system will allow mailers to obtain a trust fund balance for Metered and Precanceled stamps.)
106463	Unable to cancel IMSB Full Service FCM and SM statement with UPD status from the Mailer dashboard	Yes		Both	Users can open the Postage Statement from the Dashboard and cancel the statement from the Postage Statement page.
106464	PW-IMSB Full-Service UPD not showing up on the Post Office of Mailing Dashboard, it's showing on the Post office of Permit dashboard only. Confirmation page displaying incorrect Post office of Mailing	Yes		Both	None
106473	Mail.dat - AP mailing role not being populated in pw_wizard_address	No	No	Both	None
