- ✚ **Welcome and Opening Remarks – MTAC Leadership**
- ✚ **UG 1 Subgroup Update (Reporting) – Steve Krejcik**
The UG 1 Reporting Subgroup did not meet owing to holiday. No update for the group; however they encouraged members of the subgroup to continue to review the scorecard.
- ✚ **Seamless Acceptance Service Performance (SASP) – Valerie Yates**
SASP is moving forward with request for infrastructure upgrades and did not have any new issues to report for the group. The system has stabilized due to updates in past releases.
- ✚ **Final CAT Testing Update for January 2013 Release – Dean Davis**
 - The CAT Team was currently at 94% completion and expects to reach 100% by Friday, January 4, 2013.
 - There is an issue regarding Rate Category value “C1” for High Density Plus (PS 3602), TPR 110211 has been resolved. The USPS Rate Tables were modified. The rate category for Carrier Route High Density Plus for flats over 3.3oz, but less than 16oz will work using “C” (for PS Form, Part F for Lines F26, F30, F34 and F38). The change will be tested in the test and customer environments. The release notes will be updated to reflect the change.
 - Receipt File status – the validation that was to be added was unclear in the release notes; therefore the receipt file will be added to the April 2013 release. January 2013

- (Release 33) and April 2013 (Release 34) Technical Specifications will include updates, separating R33 versus R34 Receipt Polling functionality.
- There was a question to determine if there will be a validation change regarding First Class Residual mailpieces after January 27, 2013. It was proposed to have this topic for next week's Agenda. Member desire documentation and communications regarding future validations and the conditions when various scenarios will be prevented.

July 2013 Overview Document

Please review the document for discussion at next week's meeting.

Status of Pending Periodicals mapping to Standard Mail for eDoc – Josefina Cabatu

- Final mappings have been produced and are awaiting final approval from PCSC.
- IT will review to determine the degree of work and timeline to correct mappings.
- The mappings will be posted to RIBBS on the January 2013 Technical Specifications and Guides page.

Issues List – Josefina Cabatu

There was discussion regarding the format and priority of issues and the time required for resolution. USPS encourages members to actively review issues lists and bring concerns around the assigned-priority to the UG 1. Members expressed concern that USPS prioritization system and scheduling of fixes are not adequate. Full-Service gaps must be addressed with more urgency to meet the 2014 mandate.

MTAC Issues Tracking System (MITS)

-  To see the previous postings of minutes and other user group documents, the steps are:
 1. Business Customer Gateway
 2. National Customer Support Center - RIBBS (listed under "Customer Support")
 3. MTAC (next to the last tab on left menu) MTAC Issues Tracking System Login (listed under "Important Links"
<http://ribbs.usps.gov/index.cfm?page=mtac>)
 4. Sign on with user name UG 1
 5. Email Kathryn Mackey at Kathryn.r.mackey@usps.gov to obtain a password.
 6. Click on User Group
 7. Search on User Group Issue Number 1
 8. Click on View Minutes
