

MTAC Work Group 164

**Weekly Meeting for
September 2, 2014**

- 1. Discussion on potential options for improving data provisioning**
- 2. Any Other Business**

Date Identified	Summary	Description
8/26	IV Timeline	Group wants to see, discuss and understand Informed Visibility schedule and plan
8/26	Pulse Overview & Timeline	Group would like more information on Pulse solution described by Steve Dearing at MTAC
8/12	Data latency follow-up.	If SASP is getting data in near real time, why does the group still see latencies and what is causing them?
8/12	Data latency data mapping	Group needs draw a timeline w/PostalOne! and compare it to the data in the “field” to define which potential latency issues we will do a “deep dive”
8/12	Fees	Group warned that we must address potential fees being charged for any solution we propose

Any Other Business?
