

MTAC Task Team (TT) #23

Date: March 02, 2016

Attendees: Pritha Mehra, Adam Collinson, Angela Dyer, Tarlochan Mann, Heather Dyer, Jason desplechin, Randy Workman

Discussion Items

- Randy updated the TT on the testing results, overall no valid errors were found, there was by/for error, where the mail owner and mail preparer was identified. IMSb, Bundle Based, Postage statement reversal, spoilage capability factors are still outstanding.
- Jason reviewed the weekly Mailer Scorecard performance metrics that are posted on RIBBS, Average column will be removed as it is not useful data, will add quarterly average column to have more relevant data.
- Pritha would like to open the FS to wider audience and announce it on the pre-MTAC webinar, Todd agreed with the approach. A webinars will be arranged to call for any FS issue during the testing period.

Action Items

- Post Publication, FAQ by March 11th - Heather
- Post the revised Mailer Scorecard performance metrics on RIBBS – Heather/Jason
- Share the new SLA metrics with User Subgroup – Heather
- Announce the FS testing is complete and is tentatively ready for Industry on the pre-MTAC webinar – Todd/Pritha
