

Mail Preparation & Entry Focus Group Year End Review

MTAC

January 14, 2014

Collaborative Efforts

- Re-opened Task Team #11 to review current structured release cycle
- Identified HUB locations and defined communication process
- MTEOR (Mail Transport Equipment Online Ordering system) User Group 7
- Maximizing 5D Scheme Labeling Lists
- Workgroup 156 Mail Optimization Matrix

Classification Changes

- OMX / Mixed ADC Separations
- Single Piece Unit Handling and Containerization FCM and STD
- Change 24 Piece Sack Rule for Periodicals
- 3D/5D SCH vs. 3D/5D Trays Presort Logic
- Eliminate Quick Service Guides 201b, 703, 705a-f and 707a
- Increased Pallet Stack Limit from 4 to 6 for Drop Shipments
- Moved FSS Prep from Optional to Required
